

Flag2Go

Flag2Go has a sturdy base and a swiveling aluminum pole allowing it to withstand uncontrollable weather conditions. They are ideal for any outdoor event and exhibit.

Large Graphic Area

Flag2Go has a large graphic area and is printed with Photo Flag™ technology, which causes the image to bleed through the fabric, allowing it to be seen from both sides.*

*Amount of bleed through will vary depending on color(s)

Sturdy

Flag2Go has a hard plastic tank that can be filled with water and an aluminum pole that swivels with the wind, providing maximum stability in windy conditions.

Durable and Long Lasting

Flag2Go is built from the highest quality components ensuring it will last for years, even in unpredictable weather conditions.

Easy to Set-up

The flag is attached at ground level and then each section of the telescoping pole is raised and locked into position. Since the pole is made of aluminum, it is light enough to be raised by just one person.

Hassle Free Guarantee
If it ever breaks, we'll fix it!
